

# THE SCREENFLEX ADVANTAGE

Over the past 25 years, other companies have tried and failed to make a quality room divider with the stringent standards of excellence that our customers demand. One can see below that when we compare our portable partitions to our competitors, the finer details make the difference. We offer a tougher American built, better sound absorbing, and safer room divider. Not only do we build a quality room divider, we also do our best to provide a great customer service experience. We specially designed the packaging to make sure your dividers arrive safely, and we stand by our quality with a money back guarantee. View the chart to compare portable partitions for yourself and learn what sets Screenflex Room Dividers apart from the rest.

SCREENFLEX  
ADVANTAGE

1

## BUILT TOUGHER

OTHER  
COMPETITORS

Full Length Hinges and Dozens of Custom Screws for Strength

Just one of the many examples of our quality are our full length hinges. Screenflex Dividers have dozens of connecting points between each panel. Other manufacturers only have two connecting points. Which do you think is stronger?

Only One Geared Connection Top and Bottom

SCREENFLEX  
ADVANTAGE

2

## MORE SOUND ABSORBING

OTHER  
COMPETITORS

More Sound Absorbing Fiberglass

With **two** layers of sound absorbing fiberglass matting on each side of each panel, Screenflex dividers provide twice as much sound absorption. Double fiberglass matting means a quieter environment for all.

Less Fiberglass

SCREENFLEX  
ADVANTAGE

3

## ENHANCED STABILITY

OTHER  
COMPETITORS

Stable

Screenflex Room Dividers are never wobbly or unstable due to our innovative self leveling casters. Every wheel makes full contact with the floor providing superior stability over any other room divider on the market.

TILT!

**SCREENFLEX  
ADVANTAGE**

**4**

**EASIER TO USE**

**OTHER  
COMPETITORS**

Easy to Fold and Move

Our full length 180 degree hinges make our dividers very easy to fold. One competing model only uses 360 degree connectors which make folding the divider difficult.

Harder to Fold, Unfold and Move

**SCREENFLEX  
ADVANTAGE**

**5**

**MORE SAFETY FEATURES**

**OTHER  
COMPETITORS**

Clear Vision / Low Center of Gravity

Our end frames are made of durable, welded tubular steel and are wide at the base. This creates a low center of gravity for stability and clear view when moving the divider. Screenflex dividers are engineered for quality, safety and stability every step of the way.

Poor Vision/High Center of Gravity
